

JUST A FEW OF OUR MANY SATISFIED CLIENTS:

Inspection Construction Repair **CAPABILITY STATEMENT** Coating Maintenance Installation

GSA CONTRACT NUMBER: 47QMCA22D0010

ABOUT US. Since 2015, Anderson UnderBridge has manufactured Hydra Platforms to deliver safe under-bridge access beneath America's 615,000+ bridges and countless interchanges. We manufacture our Hydra Platforms in York, South Carolina with American-made steel, and aircraft-grade aluminum. Hydra Platforms (HP) are available in four sizes: the trailer-mounted HP35; truck-mounted HPT38; truck-mounted HPT43; and truck-mounted HPT66. We are proud to be the only company in the United States that manufactures Hydra Platforms.

USERS & PURPOSE. NHI-certified bridge inspectors, bridge engineers, bridge coaters, utility technicians, and other skilled bridge labor use Anderson Hydra Platforms for safe under-bridge access on regularly scheduled projects, man-made accidents, and natural disasters.

CORE COMPETENCIES.

- ANSI A92.20
- Safe under-bridge access units, made in the USA
- Models Single deck placement access up to:
 - HP35 1,000 sf
 - HPT38 1,400 sf
 - HPT43 1,700 sf
 - HPT66 4,100 sf
- Elevated scaffold (sold separately)
- UnderBridge Operations Specialist Training
- Emergency 24/7 Technical Support
- Equipment Maintenance & Repair
- Limited Warranty

ADDITIONAL FEATURES.

- $\pm 5^\circ$ Tower adjustment for super elevation
- Operator-activated communication system at truck cab and main control panel
- Voice-activated communication system on platform
- 7" main panel display
- Level-sensing and load-sensing with visual and audible alarms
- Multiple control locations
- Wireless remote with proportional paddles

DIFFERENTIATORS.

1. Single lane footprint
2. Quick deployment & reset (<10 minutes)
3. Tower Separation System (TSS)
 - Spans over bridge rails
 - Remains horizontal during deployment for safe movement from deck to platform
4. Two-way automated radio system
5. PPE anchor points for fall protection
6. 180° platform rotation to maximize under-bridge access
7. Room for multiple crew members to spread out and work simultaneously for project efficiency
8. **Cuts bridge labor hours by up to 50%**
